# Alfresco Portable Umbrella

Maintenance

# Alfresco Portable Umbrella Maintenance Schedule

## This should be carried out bi-annually

1. Check that canopy edge cable is seated in plates correctly (the cable should be in between the intermediate plate and the corner plate bolt).

2. All nuts and bolts should be checked and tightened as needed.

3. Fabric is positioned correctly over the top plate and correctly tensioned.

4. Bolts at arm juncture are tightened as needed and umbrella retracts smoothly.

5. Check umbrella is erected until the edge cable in the canopy is tight.

6. Wipe over all components and treat all stainless parts with corrosion protection spray.

7. Clean canopy with warm soapy water and soft bristled broom. (No high pressure cleaners or abrasive chemicals to be used).

Please refer to Cleaning Guidelines
