Alfresco Portable Umbrella

WIND RATING

The Skyspan portable range of umbrellas have been designed in accordance with the relevant Australian Standards for a design wind speed rating of 17 m/s (60km/h), and complies with so much of the provisions of the Section B1 of the Building Code of Australia as is relevant to the structural engineering components of the umbrella.

The relevant Australian Standards used in the design were:

AS1170.2	SAA Loading Code	Part 2: Wind Loads
AS1664	SAA Aluminium Structues Code	
AS3600	Concrete Structures	
AS4100	Steel Structures	

The umbrella supplied will meet the design rating provided that the construction is carried out in accordance with the drawings and specifications and in a manner consistent with good building practice, and the umbrella is properly tensioned and maintained.

The umbrella should be closed when not in use or when very strong winds ie. greater than 17m/s are predicted.
