Horizon Umbrella

Maintenance

Horizon Umbrella
Maintenance Schedule

This should be carried out bi-annually

1. Check that canopy edge cable is seated in plates correctly (the cable should be in between the Intermediate plate and the corner plate bolt).

2. Nut and bolts should be checked and **only** tighten as needed using a 13mm spanners.

3. Fabric is positioned correctly over top plate.

4. Bolts at base plate are tighten as needed using a 19mm socket (you may need to remove plastic plug to reach nuts).

5. Check corner bolts that hold canopy down and tighten (using a 5mm Allen key).

6. Check umbrella edge cable in the canopy is tight.
