HORIZON

Centre Column Umbrella

Premium materials combine with classic design in a commercial grade umbrella, purpose built to live outdoors. The Horizon range is ideal for outdoor dining, resorts and entertainment venues. Adding accessories, make it a versatile all rounder to cover any scenario.

- Fixed canopy offers the freedom of permanent shelter in breezy conditions.
- Engineered to withstand wind speeds of up to 118kph.
- Available in square, hexagonal and rectangle, in a range of sizes offering extensive shade coverage.
- An architectural grade PVC Canopy, that is waterproof, heat reflective, and UV resistant, keeps customers dry, cool, and sun-safe.
- The Horizon has anti-inversion cables to stabilise the umbrella in strong winds.
- Compatible accessories such as heating and lighting transition your space from day to night.

HORIZON

Features

Offering extensive shade covering, available in several shapes with high corrosion resistance materials, a wide range of accessories and a W33 (118kph) wind rating, it's easy to see why the Horizon range is a favourite.

Fixed Canopy

A fixed canopy offers year round shelter. Engineered for winds up to 118kph, the fixed canopy offers a functional and cost effective solution for long-term, permanent cover, in sheltered and breezy locations.

Corporate Branding

With our "direct to fabric" print service, professionally promote your brand on your canopy using colour fast inks for accurate colour matching and a premium finish.

Portable Base Option

Several Horizon models are able to be installed in our stylish concrete Skyspan™ Cubes, allowing maneuverability of the umbrella.

HORIZON

Premium PVC Canopy

An architectural grade PVC adds strength and style to the canopy. Purposefully designed for umbrellas, the Horizon's canopy fabric has been pre-tensioned in manufacture to prevent stretching and tearing after continuous use.

Choose from a multitude of colours that have been tested and rated by their ability to reflect, absorb and transfer heat, ensuring the umbrella is cool and comfortable to be under.

A protective PVDF coating has been applied to the canopy stabilising the colour pigment in the fabric for fade resistance to pro-longed sun exposure.

The flame retardant, anti-fungal and dirt repelling properties of the canopy make it easy to keep clean and ideal for commercial environments.

A permanent UV surface treatment stabilises the colour pigment in the fabric to resist fading, and provides an Ultraviolet Protection Factor of 50+, blocking harsh UVA and UVB rays.

Compatible Accessories

Pre-wiring is available to accommodate heating, LED lighting, speaker systems and power points, to enhance your outdoor experience.

Rain diverters can be attached to the Horizon's waterproof canopy to channel away water.

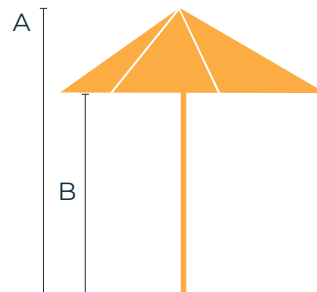

- Support Australian Industry
- Products specifically designed to suit Australian conditions.
- Shorter lead times than imported products.
- Parts and Accessories are readily and easily available

General Specifications

- Styles: Hexagon, Square, Rectangular.
- Canopy Type: Fixed Canopy, architectural grade, high tensile PVC. Marine Grade 316 Stainless Steel catenary cables and fittings.
